CALLUS REMOVER: Callus removal pads, \$5.99, Kerasal

WHAT HAPPENS: Rub the pre-moistened, dual-textured pads over the rough skin on your feet to remove calluses safely.

WHAT WORKS: The pads are easy to use on flat surfaces, such as the bottom of your heel or foot. The textured side easily removes rough skin.

WHAT DOESN'T WORK: You still have to use a little water or you'll find them too dry. The pads are fairly stiff, so getting around the curves of your heel is difficult.

WHAT YOU'LL GET: Ten square, pre-moistened pads measuring 2 1/2 inches. One side removes calluses while the other cleans away any exfoliated skin.

TO BUY IT: Available at mass merchandisers and online
